AP Biology Exam Format

The AP Biology exam is a three-hour exam that is divided into two sections: a multiple-choice section and a free-response section. The multiple-choice section consists of 60 questions worth 50% of the total score. The free-response section consists of six questions worth 50% of the total score.

- **Multiple-Choice Section:** The multiple-choice section consists of 60 questions that cover a variety of topics in biology. The questions are

designed to test your knowledge of the content as well as your critical thinking skills.

- **Free-Response Section:** The free-response section consists of six questions that require you to write short essays. The questions are designed to test your ability to apply your knowledge of the content to new situations and to communicate your ideas clearly and concisely.

AP Biology Content

The AP Biology exam covers a wide range of topics in biology, including:

- **Cells**
- **Cell Processes**
- **Genetics**
- **Evolution**
- **Ecology**
- **Molecular Biology**

Tips for Studying for the AP Biology Exam

Here are some tips for studying for the AP Biology exam:

- **Start early.** The AP Biology exam is a challenging exam, so it's important to start studying early. Give yourself plenty of time to review the material and to practice taking exams.
- **Use a variety of resources.** There are a variety of resources available to help you study for the AP Biology exam, including textbooks, review

books, online courses, and practice tests. Use a variety of resources to get the most out of your studying.

- **Practice, practice, practice.** The best way to prepare for the AP Biology exam is to practice taking exams. There are many different practice tests available, so take as many as you can. This will help you get familiar with the format of the exam and the types of questions that you can expect.
- **Get help from your teacher.** Your teacher is a valuable resource for help with studying for the AP Biology exam. If you're struggling with a particular concept, don't be afraid to ask for help.
- **Stay positive.** Studying for the AP Biology exam can be challenging, but it's important to stay positive. Keep in mind that you're preparing for a college-level exam, and that you're capable of doing well.

Practice Questions

Here are some practice questions to help you prepare for the AP Biology exam:

- **Multiple-Choice Question:** Which of the following is NOT a characteristic of living organisms?
 - A. They are composed of cells.
 - B. They can reproduce.
 - C. They can move.
 - D. They can think.

- **Free-Response Question:** Explain how the process of natural selection leads to the evolution of new species.

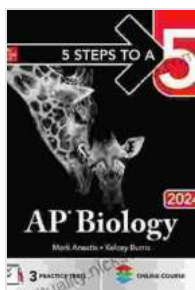

Helpful Resources

Here are some helpful resources to help you prepare for the AP Biology exam:

- **College Board AP Biology Website:** The College Board's website has a wealth of information about the AP Biology exam, including the exam format, the content covered, and practice questions.
- **AP Biology Textbooks:** There are a number of different AP Biology textbooks available. Choose one that is recommended by your teacher or that you find easy to understand.
- **AP Biology Review Books:** There are a number of different AP Biology review books available. These books can help you review the material and practice taking exams.
- **AP Biology Online Courses:** There are a number of different AP Biology online courses available. These courses can help you learn the material at your own pace and from the comfort of your own home.
- **AP Biology Practice Tests:** There are a number of different AP Biology practice tests available. These tests can help you get familiar with the format of the exam and the types of questions that you can expect.

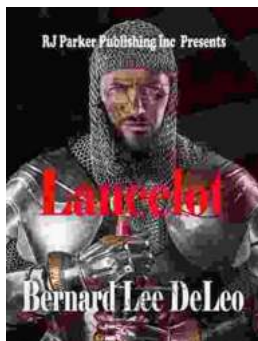

Preparing for the AP Biology exam can be challenging, but it's important to remember that you're capable of doing well. By following the tips in this guide

and using the resources available to you, you can increase your chances of success.
