Themes

Allegedly explores a number of important themes, including:

- **Race:** *Allegedly* is a powerful indictment of the racism that is still prevalent in American society. Mary is a victim of police brutality and racial profiling, and she is denied access to adequate legal representation. Her case is a microcosm of the many ways that the justice system fails people of color.
- **Class:** *Allegedly* also explores the impact of class on the justice system. Mary is from a poor family, and she is treated differently by the police and the courts than Emily, who is from a wealthy family. This disparity in treatment is a reflection of the systemic inequalities that exist in American society.
- **Friendship:** *Allegedly* explores the complex and often contradictory nature of friendship. Mary and Emily are best friends, but they are also very different people. Mary is often jealous of Emily's popularity and confidence, and she sometimes resents the fact that Emily is from a wealthy family. Despite their differences, Mary and Emily love each other, and they are determined to protect each other.
